Sexy Eyes

My roomie tried to cook but couldn't turn the oven on - he accidentally left the gas on though.

On this very day as I tried to cook all I saw was a Hollywood proportion explosion right on my face, burning my eyebrows, eye lashes and parts of my hair. No major damage, but I looked like an alien to say the least! My lashes were basically gone!

And on that very evening I went to a night club with big and full falsies and thought they made me look so sexy, I even had a guy flirting with me!

I felt really confident and was absolutely sure my falsies were doing the magic as he couldn't stop looking deep into my eyes... that was until I went to the loo only to find out one of the falsies was totally gone!

And the other one was hanging by the tip of the eye!!!

Why is the website called bytestories.com?

This is a place for "byte-sized" stories and there is a 1500 character (about 250 words) limit for two main reasons. Firstly, we want you to know that "War and Peace" isn't required to leave your mark. Secondly, it takes about 2 minutes to read each story meaning you can head here whenever you want a quick (and entertaining) read.

If you would like to share a story or create your own eBook, simply head to bytestories.com, Register an account and click on the "Share a Story" button.
